

# Aliens Love Underpants

## Butterfly Class Unit

In Butterfly Class we have been reading the story: Aliens Love Underpants.

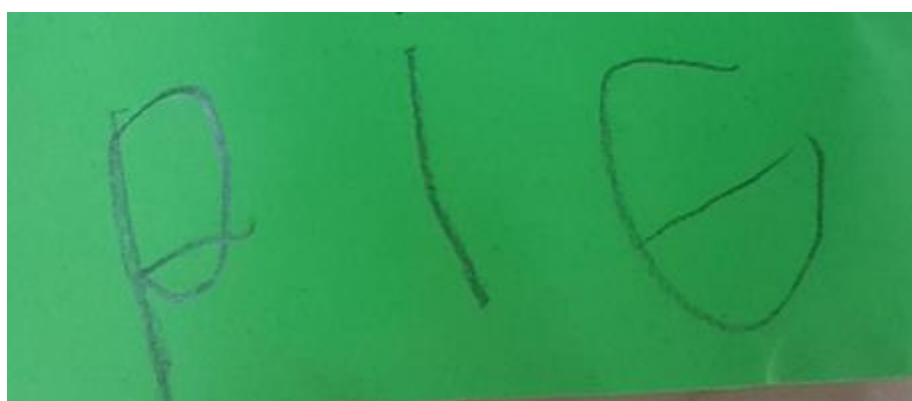

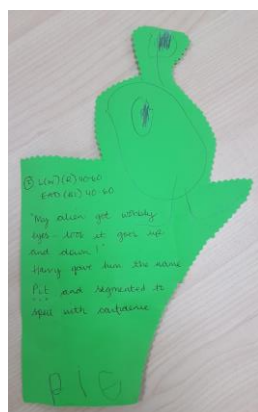

Here are some of the wonderful pieces of work created by the children in class. See if you can have a go too...

Try designing your own playdough alien and giving him some special pants. Aliens are very unique creatures and don't always have two eyes like us.

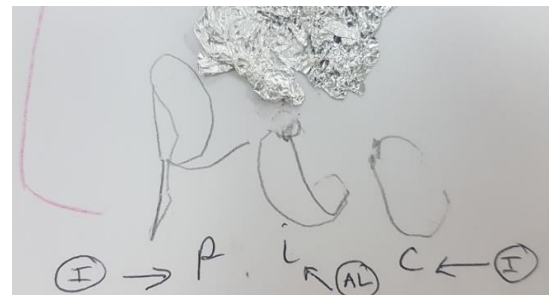

We even drew aliens and gave them a special alien name.

Meet Pit with wobbly eyes...

And Pink (Pic) with four arms...

The children have also been completing the following tasks:

- Hanging underpants and knickers onto washing lines and counting them.
- Matching pairs of underpants that look the same.
- Ordering underpants: small, big, biggest.
- Building their very own space rocket.
- Designing their own planet where the aliens can live surrounded by underpants.
- Creating their own alien masks.
