Year 6 to Min-y-Don – Mon 7<sup>th</sup> – Fri 11<sup>th</sup> July 2025

## Tree Planting with Mersey Forest

This week, all our pupils in years 5&6 have participated in a tree planting project with Mersey Forest. All the children thoroughly enjoyed the afternoon and learnt a lot about why there is such a need to plant more trees in our attempt to battle climate change. This was another amazing example of how we value and nurture personal development at The Acorns.

## ASK ME ABOUT...

Education is most effective when schools and parents work in partnership and parents are aware of what their children are learning about and doing in school. So, this week, please ask:

*Caterpillars: ask me to sing if you're happy and you know it*

*Butterflies: -Tell me how you are helping Humpty?*

*Reception: how to bake gingerbread men*

*1M: Ask me about seeds and bulbs.*

*1/2T: Year 2 - Ask me about the difference between seeds and bulbs.*

*2U: Ask me about my landscape painting*

*3S: what are the function of roots?*

*3/4T: column addition*

*4I: Ask me about the function of roots.*

*5McC: Ask me about our talk about the polar regions with Penny*

*5/6S: Ask me about our talk about the polar regions with Penny*

*6T: Ask me about our workshop with Penny, the whale scientist.*

## Penny Clarke – Arctic Explorer!

Year 5&6 welcomed Penny Clarke (Mrs Clarke's daughter) into school this week. Penny is a Whale Scientist for the Arctic trust in Cambridge. She studied in the Arctic for 4 months and did research in the Antarctic for three months. She told the children about the similarities and differences between each place. The children were truly inspired as she showed some amazing photos and videos of her experiences. She also told them about career opportunities. This experience has added to the wonderful learning in UKS2 based on the excellent book, Shingleton's Journey.

YOUR PTA PRESENTS
