

# Peas in the Bath!

## Talk Listen Communicate – Home Activities

Peas in the bath – are you crazy enough?

Simply empty the contents of the peas into your bath then add bubbles to hide the peas. This way your little ones will not expect anything, other than water, to be under the bubbles. Hopefully, when they see the peas, it will cause a great deal of confusion and questioning – which is just what we want.

### **Talk to them:**

“Oh no what has happened?”

“How did they get in your bath?”

“Who did this?”

“Can you help me get them out?”

Can they problem solve and help you do this? Have a bucket or a sieve and see what they do. Can they use their pincer crocodile fingers to pick them out then squeeze them hard enough to make them pop?

We look forward to hearing all about it.

**If you have the following equipment in your kitchen, it will make this activity even more stimulating. If you don't like the idea of a messy bath, this activity can be adapted to a washing up bowl.**
